

Velo-Boxx, the ultimate bike storage solution

Run out of space in your garage? Are your colleagues fed up with having no dry and secure place to park their bikes? Or do you want to help the city council encourage sustainable mobility? Velo-Boxx has a wide range of solutions including the ultimate secure bike locker.

Velo-Boxx offers a wide range of secure bike lockers. Its star product, the Velo-Boxx PRO, can store up to five bicycles, from wide mountain bikes to electric bikes. A mechanical or electronic security lock ensures that only authorised persons have access to the steel bike locker. The Velo-Boxx can also be fitted with a charging bar for e-bikes and our service includes delivery and installation. The Velo-Boxx can also be customised with paint and/or a logo. These weather-resistant bike lockers are well-designed, quality Belgian products and comply with all security standards.

Wide range of bicycle lockers

The other products in the Velo-Boxx range are the Velo-Boxx HOME, the Velo-Boxx CARGO and the Velo-Boxx GARDEN. The Velo-Boxx HOME is a DIY building kit and can store up to three bicycles. The Velo-Boxx CARGO was specially designed for cargo bike users. The Velo-Boxx GARDEN offers a solution for those with a lack of space in their garage or garden shed. It is a DIY building kit like the Velo-Boxx HOME and ideal for storing garden tools. We are currently putting together an international dealer network. However, in the meantime, all products can be purchased directly from Velo-Boxx.

We provide a 10 year anti-corrosion warranty, a 2 year warranty on all working parts and a 6 month warranty on the batteries.
